[LinkedIn](#)

[DJMPortfolio](#)

Full Stack developer, specializing in front & back end web design. Business professional who has the drive to succeed, with 8 years in technology and experience in management, leadership, and construction. Why I enjoy tech: The drive to succeed, the passion for learning, development of new skills, and the knowledge gained.

Technical Skills

Front end:

HTML, CSS, JavaScript, Bootstrap, Agile,
React, Ajax, jQuery, wire-frames, SASS, VS Code,
Scrum/Agile, Git-Hub, Bash, Git, Handlebars
Visual Studio, MVC & SQL, Angular

Back end:

AWS, Ruby on Rails, SQL, RESTful API,
Heroku, JSON, Express, Node.js, ASP.NET MVC
PostgreSQL, Mongoose, MongoDB, Razor, C#

Web Development Projects

<https://dominicjosephmitchell.github.io/DJMPortfolio/>

Trails: Welcome to Southern New England Trails, create an index of the trails that you have experienced.

(HTML, CSS, Bootstrap, React.js, MongoDB, Mongoose, and Express-Node.js)

Bucket List: Integrate with a third-party location-based API to allow to search for a location/venue to add to their bucket list. (HTML, CSS, Bootstrap, JavaScript, Leaflet(map), Ajax, MongoDB, Mongoose and Express – Node.js)

Tic Tac Toe: A front-end JavaScript game engine using a third-party API. (HTML, CSS, Bootstrap, Flex-box, JavaScript)

Vacations: Multi-page user experience designed photo album. (HTML, CSS)

Family Tree: Ancestry database. Build your family tree. (HTML, CSS, JavaScript)
